THANT SIN HTOO NAY

FULL-STACK & AI WEB DEVELOPER

WEB SYSTEMS / PRODUCT ENGINEERING / AI WORKFLOWS

PROFILE

ABOUT

Full-stack developer building practical web products from interface to deployment. Experienced in web systems, digital operations, financial administration, and Japanese-language business communication. Uses AI-assisted workflows to move from idea to maintainable software.

WORK EXPERIENCE

2024 - PRESENT

- **System Engineer**
  Andaman Eight Mirai Co., Ltd. **2026 - Present**
  Developing scalable web systems, managing technical workflows, and building robust web applications.
- **Data Entry containing Accounting (Japanese Speaker)**
  Nice Myanmar Group of Companies **2025 - 2026**
  Handled financial data entry, bookkeeping tasks, and Japanese-language cross-border communication.
- **Marketing Admin**
  Myanmar Unity Oversea Employment Agency **2024 - 2025**
  Managed digital marketing operations, client correspondence, and administrative workflows.

EDUCATION & CREDENTIALS

ACADEMIC + PROFESSIONAL

- **B.A. (English), Second Year**
  Dagon University
  Academic background strengthening communication, documentation, and global collaboration.
- **Professional Web Developer Certificate**
  Fairway Technology | 2023 - 2024
  Practical full-stack development, modern programming paradigms, and software engineering foundations.
- **JLPT N2 Certification**
  July 2026
  Advanced Japanese proficiency for technical communication and cross-cultural business operations.

SELECTED PROJECTS

SHIPPED WORK

Shal Su
Offline-first finance tracker with budgeting and analytics. | shal-su.thantsin.website

Tarot Booking System
Full-stack appointments, payment slip review, and administration.

Food Fusion
Responsive culinary website with interactive menus and reusable UI.

ENGINEERING APPROACH

HOW I WORK

END-TO-END
Take products from early idea through backend, responsive UI, and deployment.

AI-ACCELERATED
Use AI for drafting and debugging, guided by engineering judgment.

PRODUCTION-MINDED
Build maintainable features for real users and live systems.
